

AUDITORS' CERTIFICATE ON COMPLIANCE OF CONDITIONS OF CORPORATE GOVERNANCE:

We have examined the compliance of the conditions of Corporate Governance by Bhoruka Aluminium Limited for the year ended 31st March, 2003, as stipulated in Clause 49 of the Listing Agreements of the said Company with Stock Exchanges of India.

The Compliance of conditions of Corporate Governance is the responsibility of the management. Our examination was limited to the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above mentioned Listing Agreements.

On the basis of records maintained by the Company which are presented to the Shareholders/Investors Grievance Committee, we state that during the year ended 31st March, 2003, no Investor Grievances were pending for a period exceeding one month.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. Industry Structure, Developments and Outlook:

The company is one of the leading manufacturers since 22 years of quality aluminium extrusion in India. The products of the company commands premium and are treated as quality products. The company has produced 4221 metric tonnes of aluminium extrusions during the last year.

The fortunes of the company are directly linked with housing and construction activities as these sectors continue to be major users of aluminium extrusions. Due to improvement in general overall economic condition and also many large commercial and residential complexes being constructed, the industry has shown upward trends in demand and stabilisation in prices. A major shift of customers' preference towards quality and timely delivery is noticeable which are in line with company's philosophy and mission since its inception. In view of the same the company finds itself better placed compared to the competitors in retaining large quality conscious customers, showing better performance.

B. Opportunities and Threats:

Opportunities:

The Government of India has projected rise in the construction activities in its Tenth. Five-Year Plan putting emphasis on forestation to greater extent, and discouraging use of wood and timber for any sort of constructions. Thus, aluminium extrusions is seen as the only viable substitute for wood in buildings with great future. The entire extrusion industry is optimistic of greater demand for aluminium extrusions during the years to come. The company has been receiving repeated orders for the quality product of the company from existing valued customers and new clients too.

Aluminium offers many advantages over other material like high strength to weight ratio, corrosion resistance, aesthetics, versatality, etc. etc. Many new applications of aluminium extrusion, are being developed, showing great potential for the industry.
